Gold is believed to have been discovered in paying quantities in Randolph county, on a farm owned by N. G. Keim and others. Mr. Keim was the Republican candidate for the nomination for congress last spring. R. Chaffey and other conservative business men are interested in developments of the property. According to their story gold taken from the rocks assays \$220 to the ton. The report of the presence of gold there has awakened no excitement.

Into Elk River.

Six miles from Cleudennin on
the Graig farm in Kanawha coun-
ty, the United States Gas and Oil
Company, Monday, accidentally
struck a fine flow of oil at a depth
of only about 1,000 feet in the
shallow sand. The company has
been boring for gas in that region
and were surprised when a large
flow of oil was struck. The oil
poured forth, and ran into a near-
by creek and thence into the Elk
river. The same company has a
number of options on adjoining
land.

Back to the Yukon.

"Chet" Steck, who came from
the gold fields on the Yukon
river in Alaska last December to
visit his family here, left Tuesday
morning on his return to the
frozen north. He has three claims
there which he got in condition
for mining operations a short time
before the season closed last year,
and was able to "wash out" about
\$900 worth of the precious stuff
in only a few days. He believes
his claims are rich, and as the
mining season will open about
the time he arrives, expects to
realize handsomely from his
claims this year. We hope his
wildest dreams of riches may be
realized, for a man who spends
seven years in that God-forsaken
country is deserving of several
large chunks. — Webster Ketcher

Another Gas Producer.

Word was received yesterday by C. A. Yeager that a 8,000,000 ft. gas well had come in for the Marlinton Oil & Gas Co on Indian Creek, Ritchie county. This makes two heavy producing gas wells for this company which is owned principally by Marlinton people. The gas has been sold to the Hope Natural Gas Co, and was turned into the line the first of the month.
